PROFESSIONAL SUMMARY

B.Tech Computer Science student with knowledge of Java, Python, SQL, Data Structures, DBMS, and Object-Oriented Programming. Experienced in developing web applications using React, Node.js, Express.js, REST APIs, and MongoDB, with basic experience in AI applications using RAG and LangChain.

EDUCATION

Vignan University

2023 – 2027

B.Tech in Computer Science and Engineering

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOPS

Sri Chaitanya Junior College

2021 – 2023

Intermediate (12th)

TECHNICAL SKILLS

Languages: Java, Python, C, SQL

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Redis, Pinecone

Cloud & Tools: Git, GitHub, Maven, AWS, Azure, Vercel, Render

AI/ML: RAG, LangChain, Vector Databases, Prompt Engineering

Core Concepts: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, SDLC, REST API Design

PROJECTS

E-Commerce Platform [GitHub](#) — [Live Demo](#)

Nov 2025 – Feb 2026

MERN Stack, Redis, JWT, AWS

- Developed an e-commerce web application using MongoDB, Express.js, React, and Node.js.
- Implemented user registration and login using JWT authentication.
- Added product browsing, shopping cart, order management, and basic role-based access.
- Created REST APIs for managing users, products, and orders.
- Used Redis for caching frequently accessed data.

RAG-Based Document Q&A System [GitHub](#) — [Live Demo](#)

Feb 2026 – Apr 2026

React, FastAPI, LangChain, Pinecone

- Developed a web application that allows users to upload documents and ask questions about them.
- Used LangChain to process documents and connect the application with an LLM.
- Used document embeddings and Pinecone to find relevant information from uploaded documents.
- Built FastAPI endpoints for document uploading, processing, and question answering.
- Created a React frontend for uploading documents and displaying answers.

ACHIEVEMENTS

Built and deployed 5+ full-stack and AI-based applications using MERN, FastAPI, AWS, and LangChain.

Solved 350+ DSA problems across LeetCode and other coding platforms.

Captained the departmental Kabaddi team and secured **1st place** in the university departmental fest.

CERTIFICATIONS

Microsoft: Azure Fundamentals (AZ-900)

AWS: Cloud Practitioner (CLF-C02)

Cisco: Python Essentials, Networking Essentials, Modern AI

Simplilearn: MERN Stack, Full-Stack Development, RAG Applications
